Solution Architecture

Date	27 October 2022
Team ID	PNT2022TMID17835
Project Name	Personal Expense Tracker Application

```
                        ●

                Create a new account or
                Sign in to existing account

                      │
                      ▼

                Link all Financial account
                and way of expenditure

                      │
                      ▼

                User can add expenses if
                missed by the auto-tracking
                System of the application

                      │
                      ▼

Notify user and suggest          Un-tracked         Display user's expenses
   expense saving      ◄─────     expenses    ─────► graphically and provide
      technique                                       customer support

                      Track and list all
                transaction done by the user in
                        real time

                        ●
```
